

CSM
2010
SAN DIEGO
February 17-20

PDF PROSPECTUS

Time is running out: Don't be left on the "waiting-list" while your competition closes sales!

When you have an opportunity to meet more than **7,000 customers** at a show that traditionally **sells out before the New Year** - should you think twice? When more than **320 companies** have already signed up to exhibit - do you think they know something you may not? Use the **Current Exhibitors** link here or to the right and look for your competitors. They are probably already here!

Reserving your exhibit space now will guarantee your participation at the **world's largest gathering of physical therapy professionals—most of whom make or influence purchasing decisions** at their facilities. These full-time clinical supervisors, staff, and faculty have been practicing an average of 15 years and are looking for new ideas and solutions that you can provide. **Selling to attendees right on the exhibit floor helps you recoup your expenses while you're at the show!**

Don't delay in applying! Only a handful of companies ever make it from the waiting-list to the exhibit floor. Exhibiting at CSM 2010 is **just what the doctor ordered** for your 2010 First Quarter earnings statements.

Maximize your marketing dollars by showcasing your products and services at CSM. If you want even more impact, ensure that the thousands of physical therapy professionals remember your company by taking advantage of APTA's marketing and sponsorship opportunities ([click here for details](#)).

The Combined Sections Meeting continues to be the benchmark by which the PT tradeshow market is measured! There will be no better opportunity before next summer to sell your products and services. Start your plans today to **beat the 2010 economy - as well as your competition.**

The American Physical Therapy Association is a professional organization representing more than 70,000 physical therapists, physical therapist assistants, and students of physical therapy. APTA's goal is to foster advancements in physical therapy practice, research, and education. Learn more at www.apta.org
